APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to other ground water development in the area. A substantial weir or other type of measuring device must be installed and measurements of water use kept. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permits 28642, Certificate 9636; 35256, 52119 and 52120 shall not exceed 821.5 acre-feet annually for the irrigation of 164.3 acres of land.

The total diversion rate under Permit 28642, Certificate 9636, Permits 35256, 52119 and 52120 is limited to 2.45 cubic feet per second.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.2 cubic feet per second, but not to exceed 144.8 acre-feet annually, and not to exceed a yearly duty of 5.0 acre-feet per acre of land irrigated from any and/or all sources.

Work must be prosecuted with reasonable diligence and be completed on or before April 30, 1992

Proof of completion of work shall be filed on or before May 30, 1992

Application of water to beneficial use shall be made on or before April 30, 1994

Proof of the application of water to beneficial use shall be filed on or before May 30, 1994

Map in support of proof of beneficial use shall be filed on or before May 30, 1994

Completion of work filed APR 30 1992

Proof of beneficial use filed _____
